Thank You for this post. The video clearly shows that if your doors are locked and your residence has some sort of security, in this case motion lighting, it will deter the criminals. Again thank you for the post. The Wolcott Police are investigating.

Thanks, Brian, everyone should be fully invited and also should have been emailed.

If you don't mind making sure everyone is fully logged in by end of the week, I want to make sure that there are no issues with anyone trying to log in.

Do you anticipate sending out your "Welcome Message" the same day as when the public announcement is made?

Attached is the spreadsheet with all users so they can get started. I am waiting for the Chief to look over the press release and approve his quotes before I send it to your media team. I plan on doing training with all personnel who will be utilizing the system within the next two weeks. That being said these guys are pretty tech savvy and will learn a lot from getting in there and checking it out.
